

## Sewer Pipeline Work in Pacific, Algona & Auburn

Phase B of the Kent-Auburn Conveyance System Improvements Project

### Construction Update – June 19, 2018

#### ***Update: Frontage Road paving planned to begin in late June***

Our contractor has been working to schedule crews to repave Frontage Road following successful sewer pipe installation last fall. Crews plan to grind, repave, and stripe Frontage Rd. as early as the week of June 25.

Crews will start work at the Pacific Pump Station and work northbound, crossing Ellingson Road as early as the week of July 2. This work is weather-dependent and subject to change.

Crews will restore the road to pre-construction conditions, repaving and restriping roads impacted by construction. Crews will also restore any sidewalks, gutters, and landscaped areas.

#### **What to expect:**

- **Frontage Rd. work hours:** weekdays between 7 a.m. and 7 p.m.
- **Ellingson Rd. intersection work hours:** weekdays between 9 a.m. and 2 p.m.
- Restricted parking; please look out for no parking signs
- Noise, dust, odors, and vibration typical of a construction site
- During grinding and paving, individual driveways will be blocked for several hours. It is important that new asphalt has enough time to cure after it has been poured. Crews will notify businesses in person one day prior to impacting driveway access.
- Temporary single lane closures as needed (flaggers and signs will direct drivers through the work area) – intersection traffic will be maintained in all directions
- Access maintained for emergency services, mail delivery, and waste pickup

#### **Future paving work:**

When this work is finished, crews plan to continue north onto Seattle Boulevard. Future notice will be sent out when this work is confirmed.
